

Clean Simple Odorless Clogproof Minimum Maintenance and It Works.

FAST Marine Sewage Systems are built exclusively by St. Louis Ship, America's Largest Inland Shipbuilding and Repair Firm. FAST® stands for Fixed Activated Sludge Treatment, which is a patented biological process for removing impurities from sewage as required by law. FAST Systems are certified by the U.S. Coast Guard as Type II flow-through devices. They also meet U.S. Public Health Service and A.B.S. Requirements, and all known or anticipated marine standards worldwide. This unique system is extremely reliable and consistent in operation. It has been proven by continuous marine service since 1970. It cannot be clogged and operates without foul odors. Simple but

rugged in design, there are no adjustments. It operates with minimum maintenance, low operating costs and produces superior effluent quality. Available three ways: modular, completely assembled or built into vessel tankage. Accommodates 3 to 3000 persons. The FAST System is also convertible to Type III No Discharge operation if desired.
